Professional Experience

Current

2023

Useful Group

Web Developer | 📍 USA, Remote

Working on a variety of projects by listening to our clients' ideas and turning them into reality, from simple websites to complex apps.

2021

Freelancer

Web Developer | 📍 Remote

As an independent contractor, I've been able to build new innovative projects from scratch putting my development, planning, design and teamwork skills to the test.

2019

Logitix

Software Developer | 📍 USA, Remote

Working on one of the biggest ticket brokerage management systems in the world, I've built new features, improved existing ones, and made huge boosts to performance.

2017

SIGE Cloud

Software Developer | 📍 Brazil

Built new mobile apps from scratch with Ionic, a simplified desktop ERP with Electron, and modernized the existing Web version by applying the Microfrontends approach.

2014

Promob

Software Developer | 📍 Brazil

Developed and maintained an internal web app, adding and adapting features to the business needs. Built several APIs used by other dev teams, and integrated them with 3rd-party services.

About

I have a passion for building fast, responsive and pretty UIs, bringing great designs to reality and improving them as they get built. I love learning new things and applying them in practical solutions, either improving existing services or building completely new ones.
